Corebreakers Mission Types and Rules

V0.0.20

Special Mission: Coreborn Recovery

This mission is designed to be used in campaign play only. It may not be balanced for one-offs

Terrain Setup

- Standard terrain setup, plus a 10” diameter open terrain circle in the exact center of the battlefield.
- Place 4 offline Coreborn Frames (70mm bases) models in the circle, each facing outward. These represent powered-down Coreborn waiting to be claimed.

Deployment

- Both players deploy within 8” of their table edge.

Objectives

- **Primary Objective**: Extract 1 Coreborn through your deployment edge.
- **Secondary Objective**: Extract 2 Coreborn through your deployment edge.
- **Tertiary Objective**: Destroy or extract a Coreborn your opponent attempted to unlock or pilot.

Special Rules:

Corelocks:

Each dormant Coreborn has 3 Corelocks.

- An infantry in base contact may spend its firing action to attempt an unlock.
- Roll 1 × Tier 3 (Yellow) die:
    - Hit: remove 1 Corelock.
    - Crit: remove 2 Corelocks.
    - Miss: no effect.
- Once all Corelocks are removed, the Coreborn powers up and may immediately be entered and gets its turn with the same restrictions as entering a Coreborn in general gameplay.
- If an Expeller or Infantry with Coreborn training attempts to unlock a Corelock roll 1 x Tier 4 (Purple) die.
- If an Operator or Outrider attempts to unlock a Corelock roll 1 x Tier 6 (Red) die.

Piloting:

- Any infantry in base contact with a powered-up Coreborn may spend its firing action to enter and take control as normal.

Coreborn Loadout:

- Recovered Coreborn are equipped with: Standard Core, Light Laser, Fists, Standard Armor, and no upgrades.
- The Coreborn in this scenario have a unique statline:

Coreborn Frame				
Movement	**Structure**	**Dodge**	**Guard**	**Jump Jets**
8”	5	1	2	No

Extraction:

- To permanently add a Coreborn to your detachment, it must exit the battlefield through your deployment edge while piloted. Reaching within 3” of your deployment edge counts as extraction. Any Coreborn left on the battlefield at the end of the mission are lost even if someone is operating it.

Contest:

- A locked Coreborn cannot be unlocked while enemy infantry are also in base contact with the Coreborn.

Coreborn Damage:

- Coreborn cannot be damaged until their corelocks are disengaged

Turn Limit:

- This mission lasts 5 turns.

Mission 1: Bunker Busters

Terrain Setup

- Place terrain as normal.
- Each player places 2 bunkers in their half of the battlefield.
- Each bunker must be placed at least 6” from its controlling player’s spawn and at least 8” from any other bunker.
- Each bunker should be 5 inches wide, 4 inches long and 2.5 inches tall.
- Mark that each bunker has 12 HP in any way.
- Each bunker must have a clearly marked entrance.

Bunker		HP: 12	N/A
Range: 14”	Mv: 0”	Dodge: 0	BNK
Vs Infantry 3 x Tier 3 (Yellow)		Vs Coreborn 2 x Tier 4 (Purple)	
Passives: 360 degree firing Does not gain standstill or half range bonuses			

Deployment

- Both sides take turns deploying their units within 8” of their spawn edge.

Objectives

- **Primary Objective:** Destroy 2 enemy bunkers.
- **Secondary Objective:** Destroy an enemy bunker by having Infantry successfully breach it.

Special Rules

- **Damage Sources:**
  - All units attack bunkers using their Coreborn Damage value and at +1 accuracy.
    - *Example: a Corebuster attacking a Bunker rolls 2 x Tier 5 (Blue) when rolling to attack.*
  - If the Bunker is occupied, roll an additional 1 x Tier 2 (Green) die and apply damage to the infantry inside if it hits or crits as normal.
    - Apply 1 damage on hit, and 2 damage on crit.
  - A bunker may suffer a maximum of 2 damage per unit activation.
  - Coreborn deal +1 damage to bunkers on melee attacks and Coreborn melee ignore the damage cap
- **Firing from Bunkers:**
  - Occupied bunkers may fire once during the occupying infantry's firing action using the bunker weapon profile.
  - Bunkers cannot fire while an enemy unit is in base contact.
- **Capturing/Destroying by Infantry:**
  - If an infantry ends its turn in base contact with a bunker entrance, it may enter the bunker (if it is one of their own) or attempt to breach it (if its an enemies)
  - Bunkers may only house 1 infantry at a time.
  - If the enemy bunker is empty
    - Roll 1 x Tier 4 (Purple), on hit or crit it is destroyed.
    - If the attacking infantry is a Saboteur or a Shade, roll 1 x Tier 6 (Red), on hit or crit it is destroyed
  - If the enemy bunker is occupied by enemy infantry: resolve a firefight:
    - Both sides immediately roll their vs INF attack dice against each other.
    - If the attackers survive and the defenders are killed the bunker is destroyed at the end of the turn if the attacker lives to the end of the turn.
    - If the attackers are wiped out the bunker and defenders survive.
  - If both sides survive apply damage to infantry, but the bunker is not destroyed
  - If both die, the bunker is not destroyed

Turn Limit

- This mission lasts 5 turns.

Mission 2: Resource Extraction

Terrain Setup

- Place terrain as normal.
- The Defender places 2 Resource Mines on the battlefield.
- Each Resource Mine is a 8”x4”x2” terrain piece or template with a designated door.
- Resource Mines must be placed at least 10” away from the Defender’s table edge.
- Resource Mines must be placed at least 9” apart from each other and 4” from the neutral edges.

Deployment

- **Attacker:**
    - Deploys all units within 8” of their table edge.
- **Defender:**
    - 75% of forces deploy within 6” of the Mines.
    - The remaining 25% deploy within 6” of the Defender’s table edge.
- Neither Team may use forward deployment in this mission.

Objectives

Attacker:

- **Primary Objective:** Destroy both Resource Mines.
- **Secondary Objective:** Extract 3 units of mined material

Defender:

- **Primary Objective:** Have at least one Resource Mine survive to the end of the mission.
- **Secondary Objective:** Extract 5 units of mined material.

Special Rules

- **Resource Mines:**
    - Each Resource Mine has 5 HP.
    - Can only be attacked through its door.
    - All units use their Coreborn Damage value when attacking Mine Doors.
    - A Resource Mine may suffer a maximum of 2 damage per attack.
- **Mining Materials:**
    - Either team that has a unit within a Resource Mine door may spend its shooting action to collect 1 unit of mined material.
    - Collecting a unit of mined material uses the firing action.
    - Materials must be carried to the respective teams table edge to count as collected.
- **Picking up Materials:**
    - A dropped material cannot be picked up again until the start of the next turn.
    - Either team may have a unit spend its firing action to pick up a unit of mined material that is on the ground.
- **Carrying Materials:**
    - Infantry: May carry 1 unit of material.
    - Coreborn: May carry up to 2 units of material.
    - Any unit carrying materials:
        - Loses 2” of movement.
        - Cannot sprint or jump

Turn Limit

- This mission lasts 5 turns.

Mission 3: Mark The Target

Terrain Setup

- The defender has 2 buildings in their spawn measuring at least 7”x7x5” footprint and with the ability to reach the roof with ladder or other means.
    - These builds must be at least 10” away from each other and 4” from neutral edges and at least 6” from defenders edge.

Deployment

- Attacker:
    - Deploy within 6” of spawn edge
- Defender
    - Deploy within 6” of the buildings

Objectives

Attacker:

- **Primary Objective:**
    - Scan buildings to identify which one is the Target Building
- **Secondary Objective:**
    - Plant an Orbital Beacon on the roof of the Target Building and keep it on the roof for 2 consecutive attacker end phases.

Defender:

- **Primary Objective:**
    - Keep the Target Building unidentified (unscanned) until the end of Turn 3.
- **Secondary Objective:**
    - Ensure that there is no Beacon on the roof of the Target Building at the end of Turn 5.

Special Rules

- **Hidden Target:**
    - Before deployment, the Defender secretly selects one of the two buildings as the Target Building. Record this privately.
- **Scanning Buildings:**
    - Only Infantry may scan.
    - An Infantry unit that ends its activation within 1" of a building may Scan instead of firing.
    - Units that Sprinted this turn cannot scan.
    - Coreborn cannot scan.
    - After scanning, immediately reveal whether that building is the Target.
- **Placing the Beacon:**
    - Any infantry that did not sprint and chose to place the beacon, must use its Firing Action to place the 1" Beacon Marker on the roof of the target building.
- **Beach Removal**
    - Any unit may target the Beacon as a shooting or melee attack.
    - The Beacon has 3 HP and is shot with the INF damage profile
    - If destroyed, remove it from play.
- **Orbital Cannon Firing**
    - At the end of the mission if the Beacon is still on the roof, or after the Beacon has been on the roof for 2 consecutive turns, the orbital laser fires and destroys the building.
    - Any infantry on the building or within 2” of the building are killed. VETs do not roll for injury and are considered dead. Any Coreborn take 10 damage and if destroyed cannot be salvaged.
    - Once the Beacon has been maintained for 2 consecutive Attacker End Phases, the Beacon locks, the orbital strike occurs immediately, and the Mission ends.

Turn Limit

- This mission lasts 5 turns.

Mission 4: Aeonite Vault

Terrain Setup

- Standard Terrain Setup
- In the Center of the battlefield, place a Vault Terrain Piece. 3”x3”x3” indestructible terrain.
- Place 4 shields nodes (2x2x2 terrain indestructible) on the field 4” from any spawn and neutral edge and 10” from each other.

Deployment

- Both sides deploy up to 8” in on their side.

Objectives

- **Primary Objective:** Steal the contents of the Aeonite Vault.
- **Secondary Objective:** Have Control of 3 Shield Nodes for at least 1 turn.

Special Rules:

Opening the Aeonite Vault:

- The Core Vault has 3 Shielded Layers.
- To reduce a layer, a player must:
    - Control at least 2 Shield Nodes at the end of their Command Phase and have a unit within 4” of the Core Vault
- Each full round where this condition is met removes 1 Shield Layer.
    - At 0 Shield Layers, the Vault is Breached.
- If both players fulfill this criteria, it removes all Shield Layers.

Automated Drones:

- Each time a layer is removed, spawn 2 Automated Drones in base contact with the vault.
    - Spawn one drone on the edge of the Vault closest to one player's edge and the other on the opposite side of the Vault.
- At the start of each turn, before players activate, all Automated Drones on the board activate.
    - They move towards the nearest enemy and attack the enemy with the easiest shot in range.
- If all shield layers are removed at once, spawn 6 drones following all spawning rules.

Automated Drone Stats:

Automated Drone		HP: 3	N/A
Range: 12”	Mv: 10”	Dodge: 1	DRN
Vs Infantry 2 x Tier 2 (Green)		Vs Coreborn 2 x Tier 1 (White)	
Passives: **Destructive Payload**: When destroyed, explode into a 2” radius dealing 2 damage and 1 Fire Token to all units in it.			

Stealing the Contents:

- If an infantry ends its activation in base contact with the opened Vault without firing or using an active ability, it may steal the contents of the Aeonite Vault.
    - Only one side may steal the contents. If enemy infantry are also in base contact, the vault cannot be looted.
- An infantry cannot sprint, jump or ride on or pilot a Coreborn while holding the contents of the Vault.
- An infantry with the contents must make it back to the player's respective spawn edge to capture the Aeonite Vault’s contents.
- An infantry with the contents cannot drop it unless they are killed
- If they drop the contents, any other infantry may pick up the contents by spending their firing action in base contact with the contents.

Turn Limit

- This Mission lasts 5 turns.

Automated Drone		HP: 3	N/A
Range: 12”	Mv: 10”	Dodge: 1	DRN
Vs Infantry 2 x Tier 2 (Green)		Vs Coreborn 2 x Tier 1 (White)	
Passives: **Destructive Payload**: When destroyed, explode into a 2” radius dealing 2 damage and 1 Fire Token to all units in it.			

Mission 5: Capture the Data Cache

Terrain Setup

- Standard terrain placement.
- Place 1 Data Cache in each player's spawn zone (centered within the 6"x6" deployment box).
- Place a third Data Cache in the center of the battlefield, in as open terrain as possible.

Deployment

- Players deploy in opposite corners of the battlefield.
- Deployment zones are 6"x6" boxes in each corner.

Objectives

- **Primary Objective:** Score more points than the opponent.
- **Secondary Objective:** Secure your opponent's Data Cache at least once during the mission.

Special Rules:

- **Capturing Caches:**
    - A unit must end its movement in base-to-base contact with a cache to pick it up.
    - A unit cannot sprint and pick up a cache in the same activation.
    - Units carrying a cache cannot sprint, but may still fire weapons.
    - If the carrier is killed, the cache is immediately dropped at their position.
    - **Special Cache: The central cache counts as 2 points when secured**
- **Dropping Caches and Scoring:**
    - A unit may declare they are dropping a cache either at the start or end of their movement.
    - If they do, they cannot fire that turn.
    - Caches dropped inside a spawn zone are considered "secured" and count toward scoring.
    - A cache is secured if it is fully within a player's deployment zone at the end of the turn and not carried
    - Caches dropped outside a spawn do not count.
- **Scoring:**
    - At the end of each turn, a player gains a score equal to the number of caches secured in their spawn zone (not carried by a unit).
    - Scoring occurs at the end of a turn.
        - *Example: If you have 2 caches secured, you gain 2 Score at the end of the turn.*

Turn Limit

- The mission lasts 5 turns.

Mission 6: Towers Fall

Terrain Setup:

- Cover the board with at least 8 multistory buildings at least 4”x4”x4”.
- Each player designates 2 Objective Buildings on their side of the map.
- One central objective building at least 6”x6x5” is placed in the center.
- All buildings must be 3” from all edges and from other buildings and 6” from the other objective buildings
- Additional destructible buildings (non-objectives) should be scattered to fill the map.
    - Additional buildings cannot be more than 4” apart from at least 2 other buildings.

Deployment:

- **Infantry:** Must spawn on top of buildings within 6” of the respective spawn edge.
- **Coreborn:** Deploy on turn 2, must deploy on the ground, they may activate the turn they are deployed with all normal restrictions for calling in Coreborn.

Objectives:

- **Primary Objective**: Destroy 2 of the 3 objective buildings.
- **Secondary Objective:** Cause three enemy Infantry to fall during the mission.

Special Rules:

- The ground is considered to have biohazardous material coating it in a thick layer of smoke. Any infantry that comes in contact with the smoke is taken out of action.
- If an infantry fails to jump a gap, they fall into the gas and are taken out of action.

Building Rules:

- All non objective buildings have 8 HP.
- All objective buildings have 12 HP.
- Buildings are destroyed when reduced to 0 HP.
- Infantry cannot enter buildings in this mission

Destroying Buildings:

- Coreborn attacks against buildings gain +1 Accuracy in melee.
- All infantry use their vs Coreborn damage against buildings with +1 Accuracy.
    - Corebusters attack buildings with +2 Accuracy.
- Any infantry on destroyed buildings are immediately considered to have fallen

Riding Coreborn:

- Infantry may ride Coreborn as usual in this mission, but if they fall off they are considered to have fallen into the gas

Infantry on and falling from buildings:

- Coreborn attacks against infantry on buildings have -1 Accuracy.
- TRP Infantry caught on a destroyed building or that fall into the gas are immediately killed.
- VET Infantry caught on a destroyed building or that fell into the gas roll on the Major Injury Table after the mission.

Saboteur Special Rules:

- **C4 Charge:** Saboteur on top of a building may roll 1 × Tier 4 (Purple).
- On Hit or Crit the charge is planted. It detonates at the start of the next round.
- Any infantry in base-to-base contact with the charge may Disarm:
    - Roll 1 × Tier 2 (Green) (Saboteurs & Drones roll 1 x Tier 4 (Purple).
    - Hit or Crit = C4 removed.
    - Miss = C4 detonates immediately.

Turn Limit

- The mission lasts 5 turns.

Mission 7: Breach the Fortress

Terrain Setup:

- Place a fortified base at the center of the map (about 10”-13” across). The base should have 8 walls (treated as terrain with HP) and 3 auto-turrets.
    - Each wall segment has 7 HP and can only be attacked with Coreborn damage values.
- These walls should be at least 6” long, 2” wide and 5” tall. Enough to hold infantry on it.
- All Infantry may scale walls with grapple hooks if they do not have jump packs at a rate of 1” height costs 2” movement.
- 3 Auto-turrets are mounted on the walls or corners of the base in locations chosen by the defender..
- Each turret can only be attacked with Coreborn damage values.

Auto-Turret Stats:

<table>
<tr><td colspan="2">Auto-Turret</td><td>HP: 5</td><td>N/A</td></tr>
<tr><td>Range: 10”</td><td>Mv: 0”</td><td>Dodge:-1</td><td>N/A</td></tr>
<tr><td colspan="2">Vs Infantry
3 x Tier 3 (Yellow)</td><td colspan="2">Vs Coreborn
2 x Tier 3 (Yellow)</td></tr>
</table>

Deployment:

- **Defender:**
    - Deploys inside the fortress or on the walls with no Coreborn.
- **Attacker:**
    - Deploys up to 6” in on any board edge. Spawn with 1 Coreborn alongside the infantry.
- The attacker may not use forward Deployment for this mission.
- The defender has special forward deployment.

Objectives:

- **Attacker**
    - **Primary Objective**:
        - Destroy all auto-turrets and breach at least 2 walls (reduce a wall segment to 0 HP).
    - **Secondary Objective**:
        - Have infantry in the walls for 2 consecutive turns. (attackers on the walls do not count.)
- **Defender**
    - **Primary Objective:**
        - Hold the fortress until the end of turn 4. At least 3 walls and 1 turret must survive.
    - **Secondary Objective:**
        - Destroy two attacking Infantry while they are climbing or standing on the walls.

Special Rules:

- Defenders second and further Coreborn spawn in on the start round 3 on any edge. They may move and act as normal. They may spawn at any time during the turn.
- If any walls are destroyed with infantry on it, the infantry is killed, VETs roll on the Major Injury table.
- Units attacking Infantry on walls suffer -1 Accuracy unless both units are on the wall.
- The walls cannot have a Coreborn jump on them
- The attacker must use the standard Coreborn call in rules but place 4 Coreborn call-in markers 6” from the fortress towards the corners of the map.

Turn Limit

- The mission lasts 5 turns.

Mission 8: Kill Confirmed

Terrain Setup

- Standard Setup

Deployment:

- Standard opposite board edges, 6” deployment zones.

Objectives:

- **Primary Objective:**
  - Have more tags banked at your spawn than your opponent by the end of turn 6.
- **Secondary Objective:**
  - Bank at least one tag collected within your opponent's side of the board.
- **Tertiary Objective:**
  - End the mission with no friendly tags remaining on the battlefield.

Special Rules:

- When an infantry unit is killed by another infantry, place a Tag Token at its location.
- If an infantry is killed by a Coreborn attack or explosive, no tag is dropped (the body/tag is obliterated).
- Only infantry can collect tags. To collect, they must end their activation within 1” of the token.
- Infantry can hold any number of tags.
- Tags are banked by bringing them back to the controlling player’s spawn edge.
- If a carrier is killed, they drop all tags they were holding at that location.
- Drones do not drop dog tags
- Only banked tags count for scoring

Turn Limit

- The mission lasts 5 turns.

Mission 9: Downed Goods

Terrain Setup

- A crashed cargo Truck (5”x2”) is placed in the center of the battlefield.
- Two more crashed vehicles with weapons mounted on top are placed 4” in front and behind the crashed truck

Deployment

- Both players deploy within 8” of their respective board edges.

Objectives

- **Primary Objective:**
  - Capture more crates than your opponent.
- **Secondary Objective**:
  - Secure at least 2 crates that were scattered by the Crashed Truck's explosion.

Special Rules:

- **Crashed Truck:**
  - The crashed truck contains 10 supply crates
  - A unit may collect 1 crate from the truck by using its firing action in base contact with the truck.
  - The Crashed Truck cannot be targeted or damaged by players.
- **Autonomous Escort Turrets:**
  - At the end of each turn, the escorts will shoot their attached guns at the two easiest targets.
- **Escort Profile:**

Auto-Turret		HP: infinite	N/A
Range: 20”	Mv: 0”	Dodge: 0	TUR
Vs Infantry 2 x Tier 3 (Yellow)		Vs Coreborn 2 x Tier 2 (Green)	

- **Convoy Failure:**
  - At the start of each turn after the Escorts attack, roll one die. Begin with a Tier 2 (Green) die on Turn 1. Increase the die tier by one each subsequent turn until the Escorts shut down.
  - **On hit,** the turrets shut off the remainder of the mission. **On crit**, the turrets malfunction and destroy the Crashed Truck before shutting down. This causes the Crashed Truck to throw crates onto the battlefield.
  - **On Miss**, the game continues as normal and the next turn increases the die by one Tier each turn until the Escorts shut down.
  - **If the escorts shut down normally, the truck automatically detonates at the end of the following turn.**
- **Placing Crates:**
  - If the Crashed Truck explodes, deal 5 damage to all units in 5” radius
  - When the truck explodes, place any remaining supply crates that have not yet been collected onto the battlefield using the following rules: around the battlefield at a minimum 12” distance from the Crashed Truck and at least 8” from each other and 4” from spawns and neutral edges. Each player places one at a time going back and forth.
- **Collecting Crates:**
  - A unit must be touching the crate or the truck to grab a crate.
  - A unit that collects a crate cannot fire during that activation.
  - A unit cannot collect a crate if it sprinted that turn.
- **Carrying Crates:**
  - A unit carrying a crate cannot sprint, jump or fire and suffers -1 dodge (cannot go below 0 dodge)
  - Infantry may carry 1 crate each.
  - Coreborn may carry up to 2 crates.

Turn Limit

- The mission lasts 5 turns.

Auto-Turret		HP: infinite	N/A
Range: 20”	Mv: 0”	Dodge: 0	TUR
Vs Infantry 2 x Tier 3 (Yellow)		Vs Coreborn 2 x Tier 2 (Green)	

Mission 10: Headhunter

Terrain Setup

- Standard battlefield setup.

Deployment

- Both players deploy within 10” of their respective board edges.
    - Standard Forward Spawns

Objectives

- **Primary Objective:**
    - Eliminate the enemy Leader.
- **Secondary Objective:**
    - Eliminate the two most expensive infantry (by Cred cost) on the opposing side.
        - If a tie, the player who owns the infantry chooses which two count for this Objective. They must tell the other player.
- **Tertiary Objective:**
    - Kill the enemy Leader in melee.

Special Rules

- Before deployment, each player designates one infantry as their Leader.
- The Leader gains the ability **Protect Me**:
    - Once per turn, when targeted, the Leader may impose -2 Accuracy on that attack if a friendly infantry is within 2”
- If the Leader is piloting a Coreborn:
    - Each time the Coreborn takes 3 or more damage in a single turn, roll 1 x Tier 3 (Yellow) die:
        - **Hit**: The Leader suffers 1 damage.
        - **Crit**: The Leader suffers 2 damage.
        - **Miss**: The Leader is unharmed.
    - If the Coreborn is destroyed, the Leader must immediately disembark. They take 1 damage automatically when ejecting.
    - While in a Coreborn, they lose the “Protect Me” ability.

Turn Limit

- The mission lasts 4 turns.

Mission 11: Power Surge

Terrain Setup:

- Place 4 “Power Nodes” 3”x2” across the battlefield. At least 4” from deployment, 10” from each other and 3” from neutral board edges.

Deployment:

- 8” deployment from board edges.

Objectives:

- **Primary Objective:**
  - Have more points than the opponent by the end of the mission.
- **Secondary Objective:**
  - Destroy a Power Node that kills an enemy unit.

Special Rules:

- Each Power Node is unstable.
  - Indicate that each power node has 10 HP
  - At the start of each turn, except the first turn, reduce the die number by 1.
  - If the die reaches 0, it explodes in a 5” radius killing infantry and dealing 4 damage to Coreborn.
  - Power nodes can be shot using the Coreborn damage dice from a unit to lower its dice number.
    - It can only be dealt 1 damage max per unit that shoots at it per turn.
- An infantry in base contact with a node at the end of its activation may attempt to stabilize it (roll 1 x Tier 3 (Yellow) die). On a hit or crit, the node is stable for the rest of the game and cannot explode or be shot. On a fail, reduce the HP of the Power Node by 1.
  - If the infantry is a Saboteur or a Drone Controller, roll 1 x Tier 4 (Purple) die to stabilize.
- If a node explodes, remove it from play.

Scoring:

- Gain 3 points per node stabilized
- Gain 2 points per node destroyed

Turn Limit

- The mission lasts 5 turns.

Mission 12: Locate and Extract the VIP

Terrain Setup:

- Place 3 large objective buildings (min 8”x8”) on the map
    - Each building must be at least 3” apart.
    - Each building must be at least 6” from the Defender’s edge.
    - Each building must be 3” from neutral edges.

Deployment:

- **Attacker:**
    - Deploy within 6” of spawn edge.
    - The attacker cannot use forward spawns in this mission.
- **Defender:**
    - Deploy anywhere within 12” of spawn edge.

Objectives:

- **Attacker:**
    - **Primary Objective**: Find the VIP by searching the correct building.
    - **Secondary Objective:** Capture and take the VIP off the home edge by the end of the mission.
- **Defender:**
    - **Primary Objective:** Keep the VIP hidden until the end of Turn 3.
    - **Secondary Objective:** Have the VIP under your control at the end of the mission
- **Both Sides :**
    - **Tertiary Objective:** Do Not Kill the VIP

Special Rules:

- The defender secretly marks 1 building as containing the VIP.
- **Searching Buildings:**
    - An Infantry must end its movement in base contact with a building entrance.
    - That Infantry is removed from the field during the next turn while it “searches.”
    - At the start of the following turn, return the Infantry to play at the same location.
    - If this was the VIP building, place the VIP model with them.
- **VIP Control:**
    - The VIP is a neutral model until claimed.
        - The VIP is counted as “claimed” by the attacker when found.
    - If an Infantry ends within 1” of the VIP with no enemies within 1”, they gain control of the VIP.
    - **Control can be contested:** if both sides have Infantry within 1”, no one controls the VIP.
- **VIP Movement:**
    - The VIP moves with and at the same time as whichever Infantry squad controls it.
    - If the controlling Infantry dies, the VIP remains in place until claimed by another.
- **Shooting at the VIP:**
    - If the VIP is within 1” of an enemy unit, resolve as if shooting into melee except roll 1 x Tier 2 (Green) where a hit or crit hits the enemy unit and a miss hits the VIP

VIP Card:

VIP		HP: 3	N/A
Range: N/A	Mv: unique	Dodge: 0	N/A
Vs Infantry N/A		Vs Coreborn N/A	

Turn Limit:

- The mission lasts 5 turns.

Special Mission: Total War

This mission is designed to be used in campaign play only. It may not be balanced for one-offs

Terrain Setup

- Place terrain as normal.
- Each player places 2 bunkers in their half (as per Bunker Busters rules).
- Each player places 3 Power Nodes in their opponents half (as per Power Surge rules)

Deployment

- Both sides deploy within 10” of their spawn edge.

Objectives

- **Primary Objective:**
    - Destroy or kill 75% of the opposing force.

Special Rules

- **Aeonite Charged Zones:**
    - After placing objectives, place 3 3”x3” Aeonite-Charged Zones on the battlefield, as if placing objectives (at least 8” apart, not within 4” of deployment edges, and not within 2” of another objective or terrain piece).
    - At the end of each turn, every Coreborn within or touching an Aeonite-Charged Zone must roll 1 × Tier 5 (Blue) die.
        - Hit: The Coreborn takes 1 structure damage and suffers de-sync. This ignores shields and damage reduction.
        - Crit: The Coreborn takes 2 structure damage and shuts down. This ignores shields and damage reduction.
        - Miss: No effect.
    - Infantry are unaffected
    - Aeonite-Charged Zones cannot be destroyed
- **Bunkers:**
    - Follow Bunker Busters rules. Occupied bunkers fire as described, can be destroyed, or stormed.
- **Power Nodes:**
    - Use all Power Surge rules except the following modifications: Except Power Nodes have 7 HP and degrade at a rate of 1 HP per turn.
- **Groundquakes:**
    - At the start of each turn, roll 1x Tier 2 (Green) die. On a hit or crit the ground shakes in a small earthquake.
    - This automatically dislodges any infantry riding Coreborn (they take fall damage as if they were thrown off as per the rules).
    - Units cannot use Jump Jets or any Jump movement during a Groundquake.

Turn Limit

- This mission lasts 8 turns.

Mission Type: Paint the Target

Terrain Setup

- Defender places 4 objective buildings on the battlefield.
    - Each building must be at least 2”x2”
    - At least 6” apart from each other.
    - At least 3” from the neutral table edges.
    - At least 6” from defenders spawn

Deployment

- **Attacker**: Deploys within 6” of their table edge.
- **Defender**: Deploys anywhere on the battlefield with the following restrictions:
    - At least 50% of forces must be within 4” of the designated buildings.
    - All units must deploy at least 16” away from the Attacker’s table edge.
- Neither Team may use forward deployment in this mission.

Objectives

Attacker:

- **Primary Objective:**
    - Scan the buildings to locate the hidden target.
- **Secondary Objective:**
    - Once identified, destroy it with a heavy artillery strike.

Defender:

- **Primary Objective:**
    - Ensure the target building is still standing at the end of Turn 5.
- **Secondary Objective:**
    - Have the target building hidden until at least the end of turn 3.

Special Rules

- **Hidden Target:**
    - Before deployment, the Defender secretly marks 1 of the 4 buildings as the objective.
- **Scanning Buildings:**
    - Attacker infantry must end their activation within 3” of a building to scan it.
    - Coreborn cannot scan
    - Units that sprinted this turn cannot scan.
    - Once scanned, the Attacker learns if the building is the objective.
- **Calling Artillery:**
    - Once the target building is identified, the Attacker may call 1 heavy artillery strike per turn.
    - Roll a 1 x Tier 3 (Yellow) die for accuracy.
    - On a miss, scatter the blast. Follow all standard Artillery rules for scatter. Each subsequent attempt gains +1 Accuracy until a hit is achieved.
    - Unlimited uses, but only 1 strike per turn.
    - Artillery Spotter Infantry skill applies, increasing Accuracy of the Heavy Artillery by +1.
- **Restrictions:**
    - Standard artillery weapons cannot damage buildings.
    - If an artillery piece has the upgrade “Destroyer Shells” it can destroy the target building but it cannot target or deal damage to any target buildings until the correct one is identified.

Turn Limit

This mission lasts 6 turns.

Mission 4: Charge!

Terrain Setup

- Standard setup

Deployment

- **Attacker & Defender:**
    - Deploy within 6” of their respective table edges.

Objectives

- **Primary Objective:**
    - Have more points than your opponent by the end of the mission.
- **Secondary Objective:**
    - Control 3 Points at the same time for 2 consecutive turns.

Special Rules

- **Placing Objectives:**
    - Place 1 2” Objective marker in the center of the battlefield.
    - The player who won initiative places a second marker at least 8” away from other Objectives, at least 9” from spawn edges, at least 4” from neutral edges and not closer to the opponent’s home edge than their own.
    - The other player places a third marker following the same restrictions.
    - Continue until each player has placed 2 markers. So there are a total of 5 markers.
- **Contesting Objectives:**
    - Any unit whose base is at least half within an Objective is counted as holding it.
    - Count the total number of units per player within each Objective.
    - The player with the greater total controls that Objective.
    - **Coreborn Domination:** A single Coreborn automatically outweighs any number of Infantry contesting the same Objective.
- **Scoring:**
    - At the end of each turn, players score 1 Point per Objective they control.
    - Tally scores turn by turn.
    - The player with the higher total score at the end of the mission wins.

Turn Limit

- This mission lasts 4 turns.
